

## Universal temperature probe PT1000 for tube mounting

4.0 m, -50°C to 100°C.

Recommended for superheating measurement when using an electronic expansion valve.

### APPLICATIONS

Refrigerated cabinets / cold rooms (MT and LT)	yes
Transcritical CO <sub>2</sub>	yes
Heat recovery	yes
Air conditioning - cooling/heating	yes

### TECHNICAL DATA

Temperature range	-50 to 100° C
Length	4,0 m
Type	PT1000

#### About us

Digitel provides high-end control, monitoring and remote management solutions for installations requiring a high degree of performance: refrigeration, heat recovery, controlled atmosphere chamber, growth chamber or special and customized installations.
